

# Vladislav Vasinev

Frontend Developer (JavaScript/React) | Building modern, high-performance web applications

Experienced Frontend Developer with 3+ years of commercial expertise in core web technologies (JavaScript, HTML5, CSS3). I leverage modern frameworks like React and Next.js to build responsive, user-centric applications. My focus is on writing clean, maintainable code and applying strong JavaScript fundamentals to solve complex frontend challenges.

## Technical Stack:

- Core Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3/SASS
- Frameworks & Libraries: React, Next.js, WordPress
- Tools & Practices: Git, Vite, Vitest, Responsive Web Design, Figma, REST APIs

## Key Achievements:

- Engineered reusable UI components using modern JavaScript and React, standardizing development across projects and reducing feature implementation time by 15%
- Developed responsive landing pages with complex JavaScript logic, resulting in 25% higher user engagement for key projects
- Optimized application performance through vanilla JavaScript optimization and asset management, achieving 25% faster load times
- Delivered 10+ production-ready projects for various clients, ensuring cross-browser compatibility and mobile-first user experiences

Seeking a Frontend Developer position in Germany from February 2026, where I can apply my solid JavaScript foundation and grow my React expertise within a professional team.

Open to connecting and discussing frontend development opportunities!
